In a great development for the St Ayles skiff class of Coastal Rowing Boat, four existing national associations have agreed to form an International Class Association, with a view to promoting the Class worldwide, ensuring the continuing success of SkiffieWorlds, and keeping the same high standards wherever St Ayles skiffs are raced. The agreement brings mutual recognition for each of the Associations and commits them to working together for the International Association

A Minute of Agreement was signed in July at SkiffieWorlds 2019 by:
